Route Radar User Guide

Subscription Service

There are two types of subscriptions available. A daily subscriptions and a monthly subscription.

Daily Subscription

Daily charge is Rs 3.50 + Government Taxes only. No additional charges per request or SMS. You will only be tracked when you click on the “Map” button, select the device from the “Devices” list or click on the “Locate” button under the device on routeradar.lk.

Monthly Subscription

You will be charged Rs 100 per month. No additional charges per request or SMS. Registered device will be automatically tracked every 15 minutes. Can also be manually tracked as in daily subscription.

How to register at Route Radar

- **Method 1**
  - For Daily Subscription, Type REG RR in the SMS body and send to 77102 from the mobile phone you want to track.
  - For Monthly Subscription, Type REG RR in the SMS body and send to 77101 from the mobile phone you want to track.

Figure 1

- **Method 2**
  - For Daily Subscription, Dial #771*517# from the mobile phone you want to track.
  - Currently there is no USSD code for the Monthly Subscription.

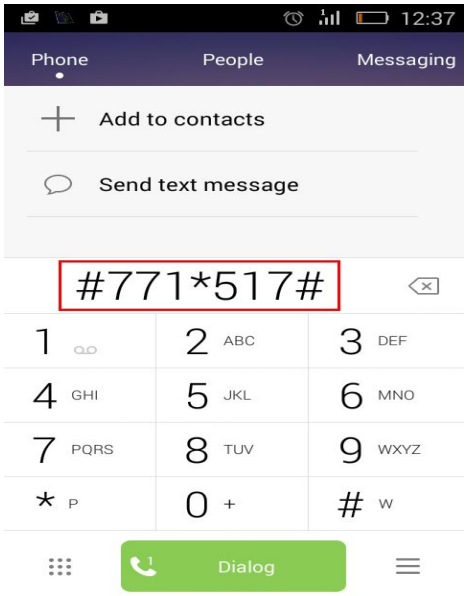

Figure 2

- You will receive a SMS from routeradar.lk. Your Username and Password is in that SMS.

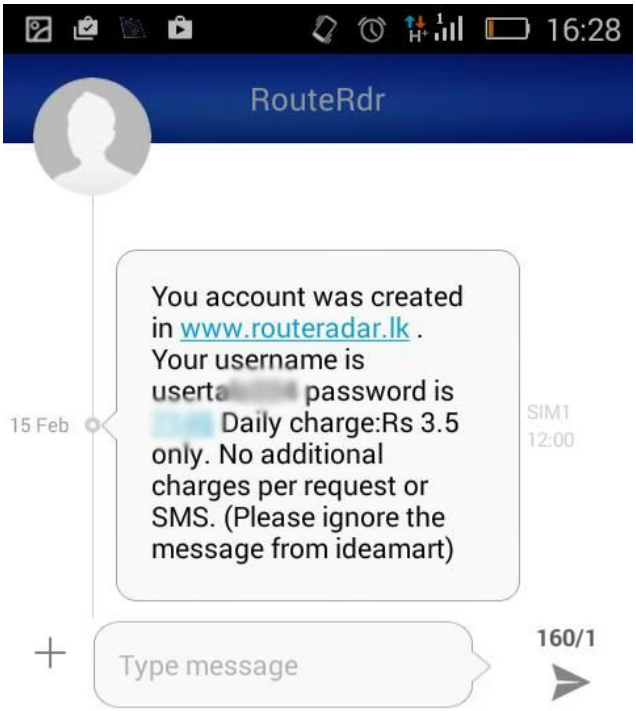

Figure 3

How to use Route Radar system

- Go to routeradar.lk website and move the mouse pointer to “Sign In” on the right edge of the screen as marked in the figure 4.

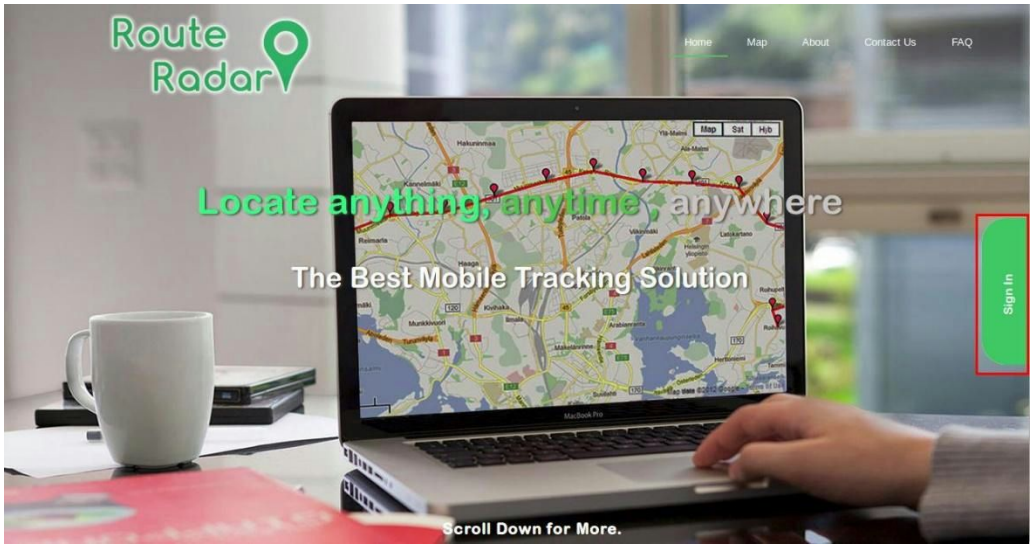

Figure 4

- Sign in using the username and the password you received in the SMS

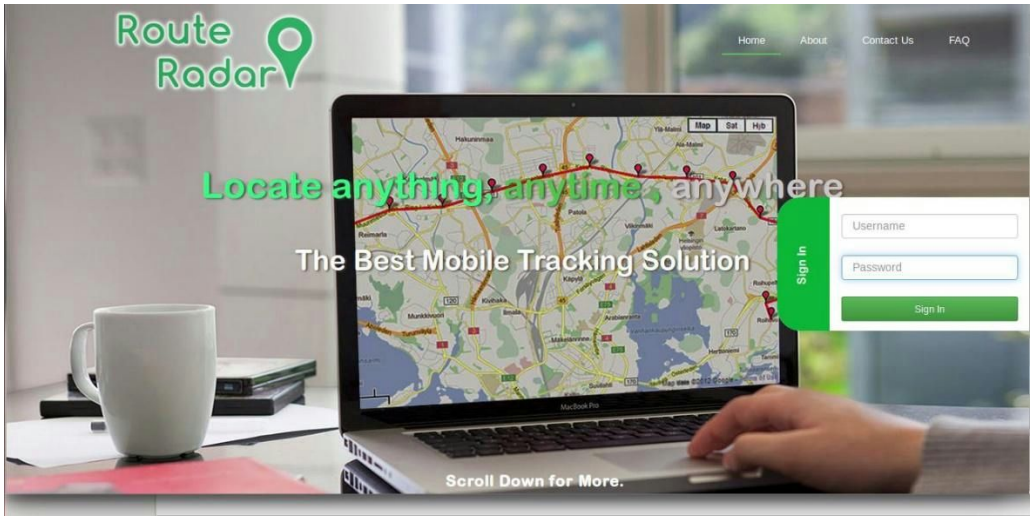

Figure 5

- Then you will be directed to a web page as shown in figure 5. It contain Google Map, Dates and added devices. You can see previously tracked locations by selecting the date.

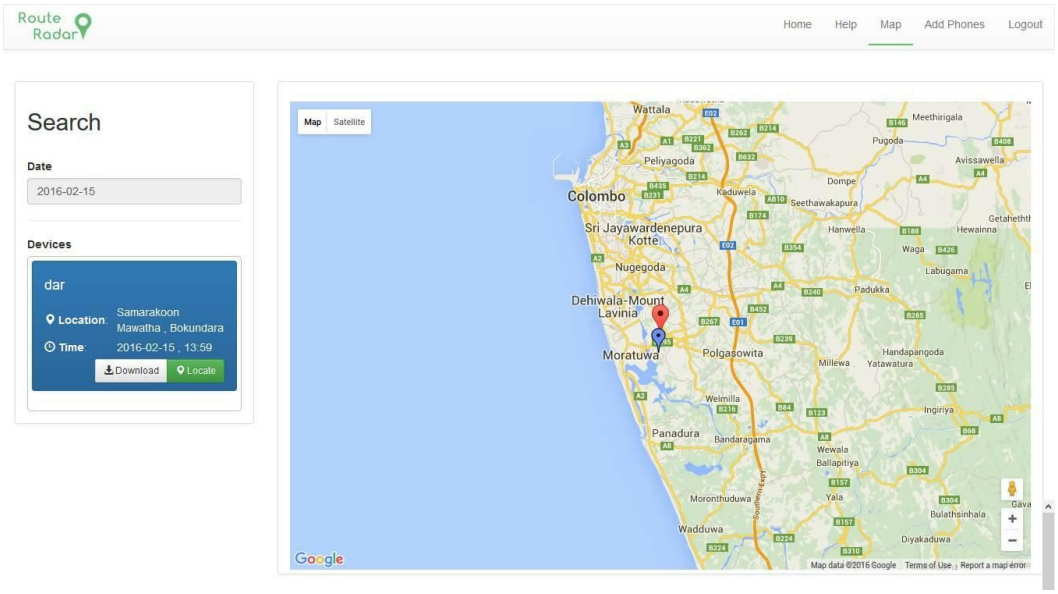

Figure 6

❖ Select a date by clicking on the “Date” field.

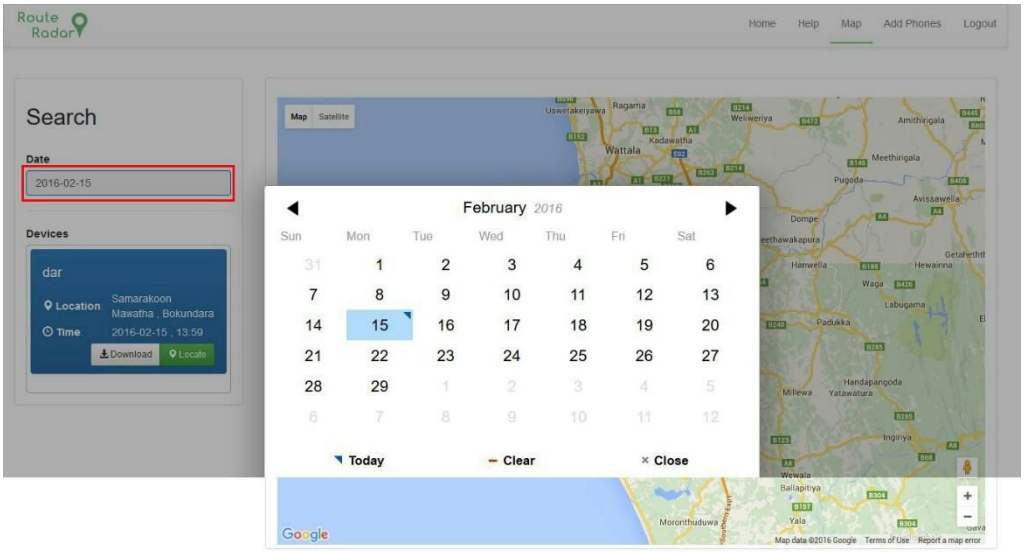

Figure 7

- Points on the map show the approximate locations of the phone is being tracked. If you click on a point you can see the location address and the times the device was tracked.

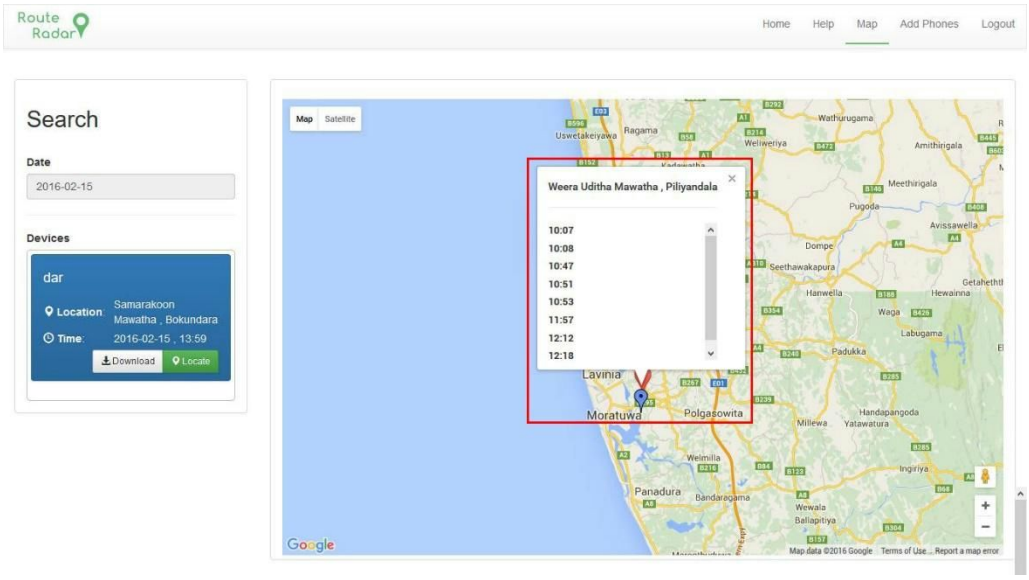

Figure 8

- To see the satellite view of the map, click on the “Satellite” button in the upper left corner of the map.

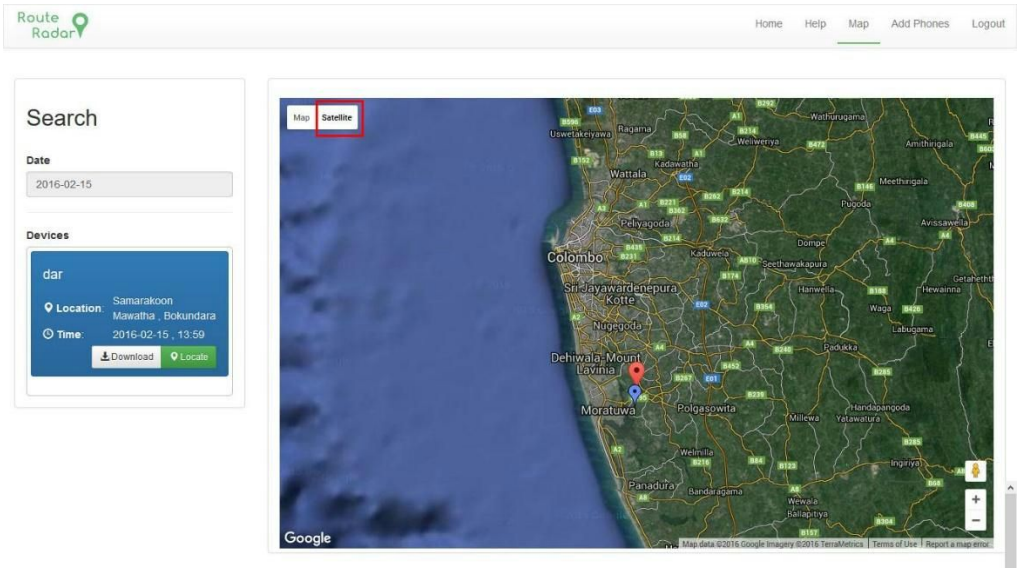

Figure 9

There will not be any additional charges or anything other than daily subscription fee. So you can check locations any time you want. If you were tracked from more than one place per day, you can see multiple number of points on the map.

Current location will be shown by a red color point and others will appear as blue color points.

- Furthermore you can see the last tracked location address, date and time under the “Devices”.

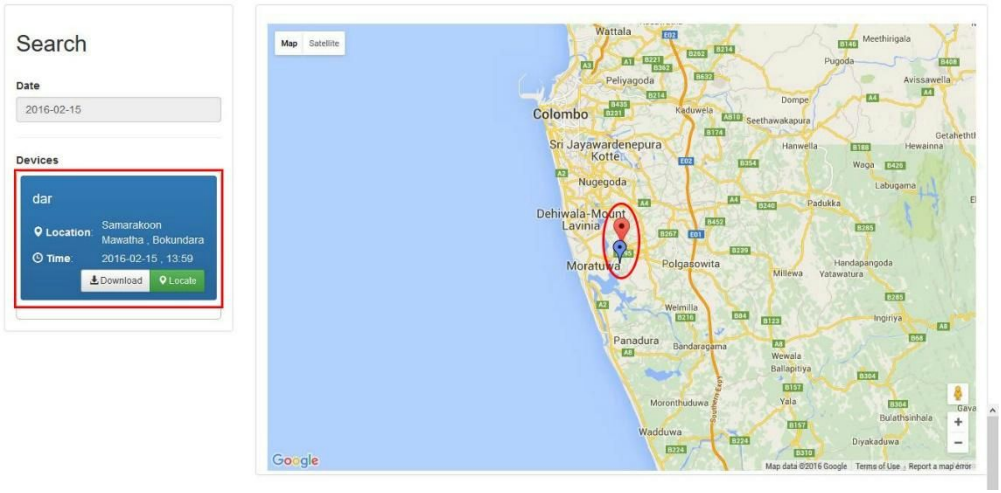

Figure 10

- By clicking the “Download” button under the selected device you can download a excel file containing a list of all the tracked locations and the corresponding tracked time.

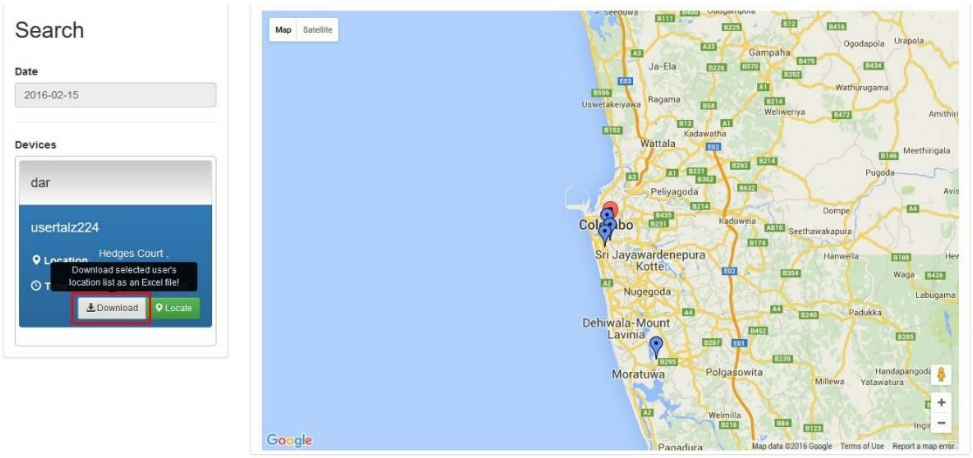

Figure 11

How to add more devices to your account

To add multiple devices to your account you should register each device with Route Radar system.

- Log in from the account you want to add more devices to. Click “Add Phones” button in the top right corner of the page.

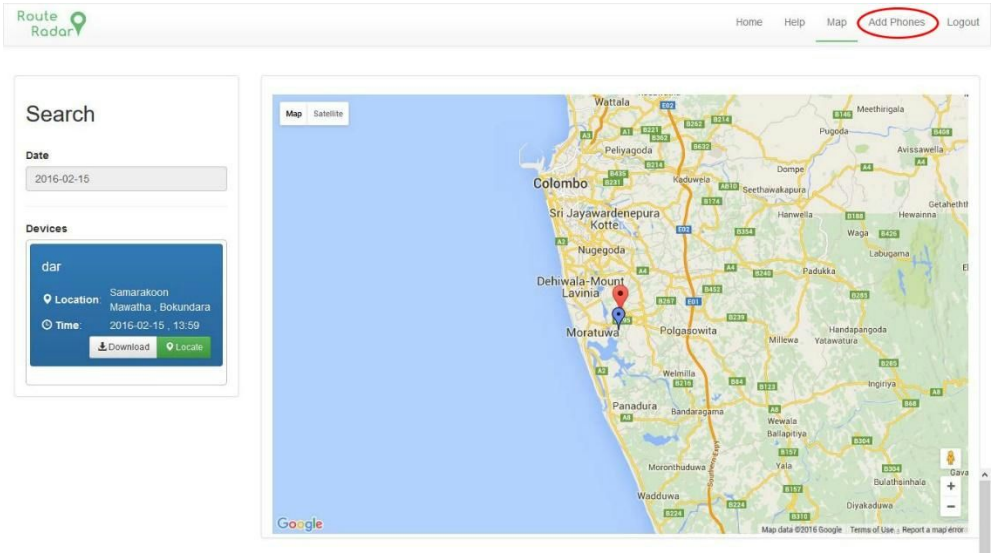

Figure 12

❖ Click “Add” button and fill in the Username and the Password you got for a newly registered device and click “Save Changes” button. Do this for each device you want to add.

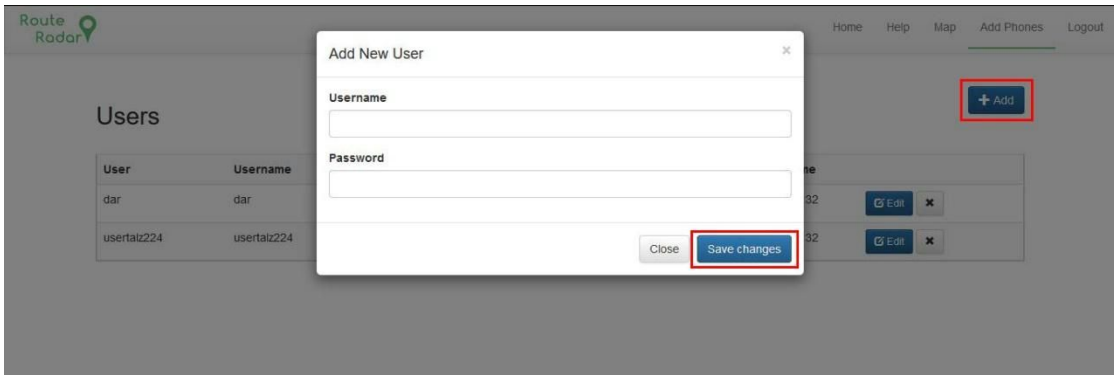

Figure 13

❖ Go to “Map” using the link in the menu bar. From there you can see the added devices under the “Devices” list.

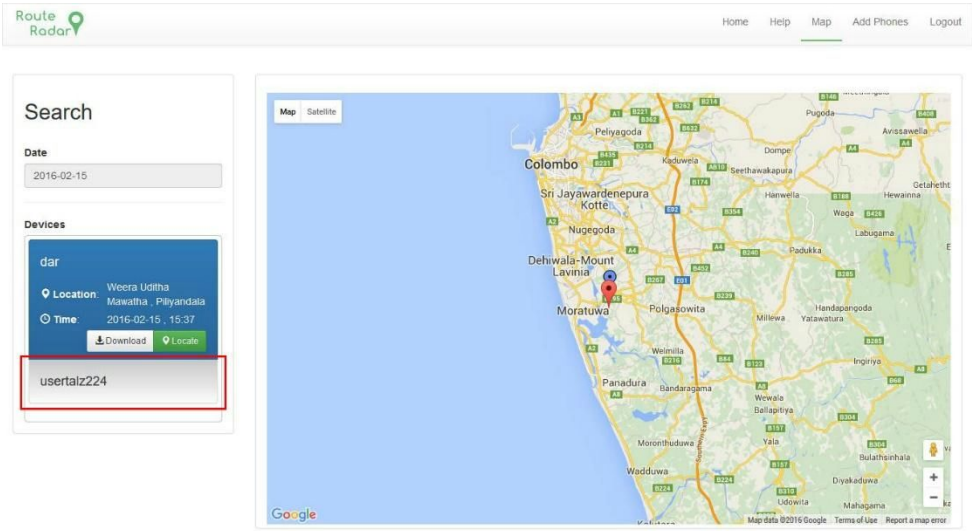

Figure 14

❖ Select any device to see its tracked route.

Manage User Account and Devices

- Go to “Add Phones” using the top right menu bar.
- Click “Edit” next to the account or device you want to edit. From there you can change the Username, Name and Password. Then click “Save Changes”.

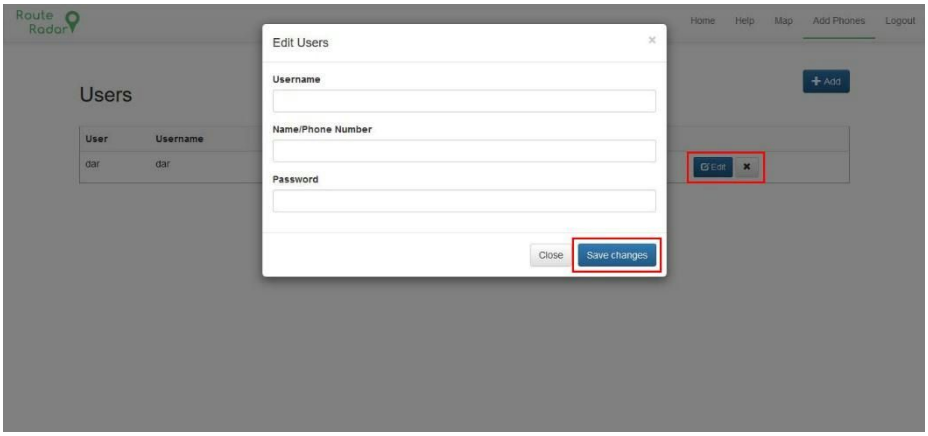

Figure 15

- To remove a device from the list click the “X” button next to the registered account of that device. (this will not unregister the device from Route Radar service. See page 11 for how to unregister)

How to Opt-Out of the Route Radar service

- For Daily Subscription, Type UNREG RR in the SMS body and send to 77102 from the mobile phone you want to unregister.
- For Monthly Subscription, Type UNREG RR in the SMS body and send to 77101 from the mobile phone you want to unregister.

  This will remove you from the daily subscription service and the device will not be tracked anymore. But you can still sign in to your Route Radar account and access previously tracked data.
